

**If it is difficult to find your shoes size, Please measuring your foot length with the following way. And tell us your foot length.**

step1

step2

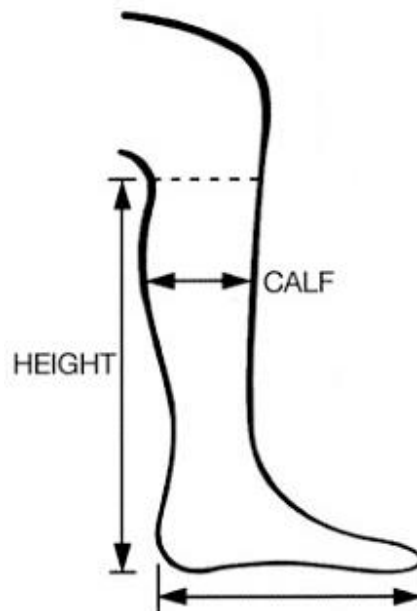

### **How to Measure for Boots**

**- Please fill out your measurement where field 'Customer Dimension' at product page.**

How to measure leg (shaft) height

- Find a tape measure (or download our handy [printable measuring tape here](#)) and take a seat.
- Sit on a chair with your knees bent at 90 degrees in the flat floor.
- Measure up from bottom of your heel straight up the back of leg to the point you want boots to reach. (For ex. 1cm below crease at back of knee).

How to measure your Calf

- If you want wear boots with leggings or skinny jeans you have to measure after wear the clothes.
- Sit on a chair and place feet flat to floor.

- Measure around widest part of your calf, leave no gap, measure to the nearest 1cm.
- Measure the calves and send us the biggest measurement.
